RE: Harris Harbor Renovations, Final Payment

Bruce:

Attached you will find our final subcontract payment to your firm for this project. It was a pleasure working with you and your personnel. We definitely respect you for performing this subcontract under less than desirable conditions caused by your original bid problem. Andre & Peter Anderson are some of the most professional electricians we have ever seen. They worked diligently to help bring this project in on time and we sincerely appreciate all their efforts. We commend Puffin Electric for a job well done and look forward to working with you in the future. If you ever need to use us as a reference please do not hesitate to do so.

Thank you again.

David Vollenweider
Project Manager
